

**Bobby Hagedorn, Manager of Real Assets and Credit**

I work in MPERS' Investment Department as Manager of Real Assets and Credit. I joined MPERS in 2013 from Edward Jones Investments in St. Louis, where I worked for 3 years. At Edward Jones I evaluated the investment merits of individual companies and have transitioned that experience to evaluating broader investment opportunities here at MPERS. In my current role, I work with all aspects of the investment portfolio, but spend the majority of my time working with our Real Asset and Opportunistic Debt managers.

I graduated from the University of Missouri with a degree in finance. I hold the CAIA (Chartered Alternative Investment Analyst) designation and have passed all three levels of the CFA (Chartered Financial Analyst) program.
