

**Jamie Mullen, CEBS, CRC®**  
**Senior Benefit Specialist**

I joined MPERS in 2014 and have over 12 years of work experience in public pension plans. I am a Certified Employee Benefit Specialist, Certified Retirement Counselor® as well as a graduate of the University of Missouri.

What I enjoy most about working for MPERS is providing individual counseling to our members. Whether you are newly vested in the plan or if retirement is right around the corner for you, I would highly encourage you to stop by our office and visit with us. If you work outside of Jefferson City, we can make arrangements to provide individual counseling at your place of business if a large enough group expresses interest. I would like to thank our membership for the important work that they do for all Missourians and I look forward to visiting with you.
